BUFFET CRAMPRON CLARINETS

B12 CLARINET

The B12 clarinets are made from ABS resin with an appearance and sound similar to that of genuine grenadilla wood. These models are lightweight, strong and easy to clean perfect for even very young players.

The B12 model has a traditional design with nickel-plated body rings, straight keywork and a traditional bell ring.

All models in the student range are equipped with an adjustable thumb rest for correct and comfortable positioning.

E11 CLARINET

Recommended by music teachers because of their easy response and remarkable accuracy, these clarinets help the musician to develop their musical talent. These clarinets are made from grenadilla wood is known for its resonance and stability, making it an ideal material for musical instruments.

The bore (internal diameter) has been specially designed to increase easy response, flexibility and an even performance in all registers.

R13 CLARINET

The R13 clarinet has quickly become the legendary choice of professional musicians. Musicians are charmed by its rich and focused sound, its power in all registers and its flexibility.

The R13 is suitable for all types of musician, symphony or chamber music, soloists, teachers, those in marching bands, students and amateurs.

Pearl

The new Quantz 505 flute joins the famous Pearl Quantz series, with its completely new Silver plated instrument.

Every Pearl flute, from this student model to the Maesta line, has French pointed arms, once considered solely the domain of handmade flutes it is now universally provided by Pearl.

Pearl flutes are patented with a pinless mechanism and a one-piece core-bar construction.

This ingenious yet simple design affords even the student flautist with an exceptionally efficient and dependable mechanism.
